MRS. E. KIDDER'S
Cholera, Dysentery,
...AND...
Diarrhœa Cordial,
...FOR...
Cholera, Dysentery, Summer Complaints of Children, Diarrhœa, Sea Sickness, general Debility, &c

WHERE this all powerful antidote is at hand Cholera is no longer to be stared at or looked upon with fear — as this Cordial will most surely cure the disease in the course of a very few hours if taken at the commencement — It has been before the public for more than six years and was the first article made known to the public as an

IMMEDIATE AND PERFECT CURE OF THE
CHOLERA.

It has been thoroughly tested in every country and every climate, and the effect is everywhere proved the same —

SURE TO CURE,

even where the disease has advanced to its last stages

CHOLERA.

Account after account reaches us of the ravages of the CHOLERA in the most unexpected and of the little source which has thus far attended the attempts to check its insidious inroads on human life

Such being the fact it surely may be regarded as an era in modern discoveries that a medicine has been discovered possessing the power of checking the progress of the Cholera, and eradicating it from the system

Mrs Kidder would most respectfully call the attention of the public to this invaluable medicine known as her

"CHOLERA, DYSENTERY AND DIARRHŒA CORDIAL"

Many thousand lives have been saved by this medicine when the disease had advanced to its last stages

It is hoped that every housekeeper will keep the Cordial at hand and if timely administered but little danger is to be apprehended in an attack of the

Cholera, Dysentery or Diarrhœa.

This Cordial immediately checks the vomiting relieves the pains, stops the Diarrhœa and restores the bowels to a perfectly regular and healthy state however severe the attack may be or however low the patient may have become it invariably restores

The Severest Cases of Dysentery

are immediately counteracted the pains allayed, the bowels checked if not unfrequently the bowels become perfectly regulated and restored in the short space of a few hours

Chronic Diarrhœa,

Either in children or adults of months or years continuance is most readily cured with this Cordial notwithstanding they may be reduced to mere skeletons, it immediately strengthens and shortly restores them to perfect health

Cholera Infantum.

It has saved the lives of many thousand children who reduced to death's door by this complaint — it gives them immediate relief and they very soon recover

Sea Sickness

It is a most pleasant and desirable remedy for Sea Sickness It checks the vomiting and readily restores the patient It never fails to check vomiting pure brandy in any cases whatever

Children that are Teething,

of such cold to Diarrhœa should always be provided with this medicine as it will keep the bowels regulated and keep off the Cankers It is wholesome and of a pleasant to the taste, and children are fond of it and will take it without trouble or dislike

For General Debility and Dyspepsia,

it is a most excellent restorative giving a healthy tone to both the stomach and bowels and prevents food from pressing or distressing the stomach

The public may rest assured that it contains no thing opium or mineral substances or anything that is in the least injurious to the constitution

CAUTION.

Be sure that you obtain MRS E KIDDER'S CHOLERA MORBUS DYSENTERY and DIARRHŒA CORDIAL, and by so doing get the only true and original article which has ever been in the highest estimation by the public throughout the whole country

☞ Truth sometimes turns the tables on the Washington Union with as good a will as if she hated the paper and its whole concern Not long since it raised the cry of 'Premeditated Proscription, and went on to tell that the heads of departments had got a large number of *blank notices* printed to be sent to those clerks and other office incumbents whom they wished to remove Now it seems to us that the outgoing citizen had just as lief be warned out by a printed as a written notice, but on examination into the charge of the Union, it now found that these blanks *were caused to be printed by Secretary Walker and his clerks two months before this administration came in* So they made the bed they lie in

He may run that reads.

We published a few days since a short extract from the Lowell Courier upon the mistakes often made by public speakers especially those of rapid utterance, in their quotations Among others the Courier instanced a transposition of Mr Webster's as follows 'We once heard Mr Webster say in a speech 'It is so plain that he who reads may run Seeing that he had given the passage wrong, he added '*as he reads* " It was certainly a very happy instance of presence of mind in perceiving a mistake, and of ingenuity in correcting it But a gentleman who is not only well informed in scripture but upon most other subjects tells us that the quotation was correct as the orator first enunciated it The second verse of the second chapter of Habakkuk is

☞ Mr Dunning's new bark, the Gold Hunter, now lying in the Kenduskeag at one of the west side wharves, wins many commendations from the passers by for the beauty of her build and rig We learn that her internal construction and arrangements for the health, safety and comfort of her passengers are equal to her external symmetry This fine specimen of naval architecture is bound for California, to sail on the 20th of next month Success to her, to her enterprising owner and to all who go in her

Sun-Stroke, or "Coup de Soleil,"

To the Editor of The Tribune

As many deaths have occured during the extreme heat of the last few days by what is commonly called Sun stroke, a few remarks upon its nature and treatment may be productive of beneficial, practical results

Sun stroke consists essentially in a paralysis of the nerves that supply the heart These nerves are principally from the eighth pair or '*par vagum* ' which arises from the *medulla oblongata*, at the base of the brain —Hence it is that in this affection we get symptoms similar to those that result from 'concussion of the brain The danger in this disease is just in proportion to the degree of paralysis

As the disease consists in a want of action of the heart, common sense without any physiological knowledge would suggest the appropriate mode of treatment, viz stimulants and counter irritation Place the patient on his back, in a horizontal position—give him fresh air keep him well covered and warm, apply cold water to his head—hot bricks, sand, &c to his feet and around him—frictions mustard to the pit of the stomach and extremities Internally give stimulants—as brandy, ether, ammonia, capsicum, &c

I have thus briefly given above the nature of the disease and indications of cure As the danger always is great, the case should be entrusted to a physician who is qualified to act understandingly in any emergency

Should the above remarks be the means of preserving even one life, my object will be gained J SAGE KILBOURNE, M D

Lady Elgin we learn with deep regret will be compelled to discontinue her daily drives around the mountain On two different occasions she has been insulted by ruffians, *in the garb of gentlemen*, who followed her carriage, cracking their whips, and hooting after her.—Montreal Pilot

And this treatment in the commercial and political capital city of British North America, toward an unoffending woman, the daughter of that man who, beyond all others, labored unweariedly and successfully to break down the exclusive monopoly of Government in Great Britain, (held till then by its Aristocracy) through the passage of the Reform bill of 1832! They must have been ruffians indeed '—N Y Tribune

That Lord Elgin was at any time *for Reform*, is the last circumstance to recommend him to the affections of the *gentlemen* who are opposing his government in Canada

Particulars of the Cassius Clay Difficulty.

From the Maysville Eagle, 23d

We expected to receive in the Richmond Chronicle of Thursday a full account of the fatal recontre between Cassius M Clay and Cyrus Turner, in Madison County, on Friday of last week The Chronicle, however, gives none of the particulars, but merely mentions the affair, and adds "that Mr Turner died on Sunday morning last, living about thirty four hours after receiving the wound Capt Clay is still in a critical condition, but the better opinion seems to be that he will recover

We learn the following from a gentleman who was on the ground There are three Pro Slavery candidates for the Convention from Madison Messrs Willis and Chenault and Maj Squire Turner, (father of Cyrus Turner,) and but one Emancipation candidate, Maj Burnam At a regimental muster at Walden's on Thursday of last week, the candidates spoke Willis and Chenault leading Maj Turner followed —(although he had promised Cassius M Clay the stand before him) alleging that Clay was not a candidate and the crowd was fast dispersing—and made a long speech Clay then took the stand, and bore more heavily in his remarks upon Turner than upon either of the other candidates and it was now evident for the first time that there was some unpleasant feeling between them

On the next day Friday another discussion took place at a regimental muster at Foxtown Willis spoke first, Turner next When Turner had spoken about an hour, Clay appealed to him to give Maj Burnam an opportunity of defending the Emancipationists and their views, but Turner refused, and spoke half an hour longer, in a severe strain, during which he read from the *True American* newspaper a portion of the article that caused the Lexington mob and the removal of the True American office to Cincinnati Clay now appealed to the people to say whether it was fair that this article should be read unless accompanied by the statement so often made to Maj Turner that the article in question was written by a South Carolina planter, (as many of his friends believed, for the express purpose of breaking down his press) and sent to his office and printed while he was lying sick of the typhoid fever—The article, he said was as repulsive to his feelings and views as it was to Maj Turner's or any other man's—and if he had not been confined to a bed of sickness it should never have appeared in his paper Mr Wm L Neale, the *printer* of the True American was on the ground and would confirm the statement

Maj Turner continued his speech after this interruption and when he concluded, C M Clay took the stand for the purpose of making a kind of apology to the people for the interruptions he had caused He again stated that he thought each party were entitled to be heard, and that each should be allowed a fair division of the time That the friends of right and justice by such a course had nothing to lose for if the Emancipationists held incendiary not one and advocated principles opposed to the best interests of the country, the people would judge of them correctly and put them down, while if their principles were founded in right and justice, it was certainly not wrong that they should be known in order that they may be upheld and supported

After making his explanation, which did not occupy more than two minutes, he was leaving the stand, when Maj Runyon, a lawyer of Richmond, at a considerable distance off plied him with questions, and Clay, with the consent of Chenault who claimed the stump endeavored to answer him Some misunderstanding occurred in reference to the disposition made of the School Fund in which Runyon pronounced a statement made by Clay false and untrue—Clay referred to an act of the Legislature in proof of his assertion, and finally told Runyon who had interrupted him before that he was a mere tool of Turner and was obeying his master Clay descended from the stand in perfect good humor and without expecting a difficulty with any one, when Maj Turner remarked that 'Runyon was not his tool

Clay replied that whether Turner knew it or not, he was evidently his willing tool Upon this, Cyrus Turner, the son of the candidate stepped up to Clay, and pronounced his statement a d—d lie, and struck him in the face—Clay was soon stabbed by some one behind him, beat over the head with a stick by Alfred Turner and perhaps others, and a revolving pistol was snapped four times at his head, bursting a cap each time, by Thomas Turner He did not draw back life, nor shake off the hold of those who were clinging to him until he perceived the blood spouting forth from his side, and believed from the wound that he must die With superhuman effort he shook off those who held him, encountered Cyrus Turner and stabbed him The wound took effect in the lower part of his abdomen, resulting in his death in 34 hours

Experiments on Salmon, Salmon Fry and Eels.

Strange as it seems it would certainly appear from his (Mr Young manager of the duke of Sutherland's fisheries) observations that a salmon may be kept for a certain length of time in a river without growing beyond the weight of two or four ounces and he showed me specimens of salmon which though of perfect form and condition did not exceed that size, whereas, had they been allowed to reach the sea they would at the same age have weighed from six to ten pounds each The growth of salmon when in the sea is wonderful it having been indisputably proved that a salmon has grown eleven pounds six ounces during the short period of five weeks and two days, the fish having been marked on its passage to the sea was caught again in the same river when ascending after an interval of that duration Mr Young told me also that his young family of salmon fry which he hatched and kept confined in ponds connected with the river has always become perfectly tame and the moment he steps on the plank laid across the ponds for the purpose of feeding the fish from they all flock around him ready to dart at the food he puts in In some of the ponds he had put a number of small eels which soon grew in size, and became as tame and familiar as the young salmon As the cold weather came on the eels all disappeared, and be supposed that they had managed to to escape led by their instinct to seek refuge in some deeper pools However one fine spring day when he had long ceased to think of his slimy pets, he happened to pass over one of the planks when he was delighted to see them all issue out from under the stones, asking for food, as if a day only, instead of many weeks had passed since he had fed them Does not this most clearly prove that eels lie dormant during the cold weather?—Mr St John's Tour to Sutherlandshire

Snipes is a sportsman who considers everything "game from a chickadee up to a moose Snipes was in luck the other day and shot a robin with his rifle at the distance of thirty yards Snipes was bragging of the fact to Mrs Mealey a kind hearted old lady, who wondering at the cruelty of Snipes wanted to know if he didn't feel some misgivings when he fired at the poor little thing? ' Yes " said Snipes, 'at that distance madam and with a single ball I naturally had a little doubt—but you see, madam,' continued the incorrigible Snipes "my aim was sharp and I fetched her down for all that —Boston Post

Asthma of Thirty Year's Standing.

Mr Seth W Fowle —

Sir —Having been afflicted for more than thirty years with the *Asthma*, at times so severely as to incapacitate me from attendance to business, and having adopted many medicines without any but temporary relief I purchased, about three years since of Mr Edward Mason your agent in this city several bottles of Wistar's Balsam of Wild Cherry *from the effects of which I obtained more relief than from all the medicine I had ever taken for that distressing disorder I have by the repeated use of your valuable Balsam been more free of pressure for breath, and oppression on the lungs, than I anticipated and in lead conceive myself cured of the most disheartening malady*

A LIFE SAVED.

Most Wonderful Cure of a man 80 years of A[ge]

In the month of November 1840 I was attacked with inflammation in my knee which soon ended in a running sore. *Mortification ensued and first joint of my toe came off* At this time I was under the care of the best physician in the country—every remedy had been tried but without any help. The agony of pain I endured no one can imagine. I could run up my leg to my thigh and had been bad that my physician despaired of ever being able to cure me and after four months confinement my bed finally told me I must *prepare to die*—I soon while warm wentleraally my leg soul fy or I death ensue I gave up in despair. Of fine is I brought me a bottle of HUNT'S LINIMENT which he said would relieve the pain I used and the effect was wonderful it seemed new life was put in me. In using one bottle the whole appearance of my leg changed to its natural color, pain left me, and two 50 cent bottles entirely cured me to the astonishment of myself and the neighborhood *Hunt's Liniment saved my life* I am years of age and make this public that every body may know how valuable of this great medicine.

PURIFY!!
A VERY celebrated disenfecting CHLORIDE for purifying the atmosphere is now manufactured fresh and good, in this city, by the subscriber.
This highly disinfecting preparation, discovered by a celebrated French chemist, is one of the best preventives against Cholera and all other diseases arising from an impure state of the atmosphere—Its presence purifies the air and renders all offensive matters entirely inoderous, and it is therefore a very desirable article to throw about sink drains, privies, and all places where the atmosphere is tainted with unwholesome gases and offensive effluvia.
This article has received the high commendations and approval of Dr. Geo. W. Holden, of this city.
For sale in boxes of fifty pounds, either by wholesale or single box. JAMES DUNNING.

NOTICE TO THE LADIES

Those that imitate Dr Townsend's Sarsaparilla, have invariably called their stuff a *great remedy for females*, &c., &c., and have copied our bills and circulars which relate to the complaints of women, word for word—other men who put up medicine, have, since the great success of Dr. Townsend's Sarsaparilla in complaints incident to females, recommended theirs, although previously they did not. A number of these Mixtures, Pills, &c., are injurious to females, as they aggravate disease, and undermine the constitution.

SCROFULA CURED

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood. Three persons cured in one house is unprecedented.

THREE CHILDREN.

Dr. Townsend. Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine.—They were afflicted very severely with bad sores; have taken only four bottles; it took them away, for which I feel myself under great obligation. Yours respectfully,

CAUTION.

Owing to the great success and immense sale of Dr Townsend's Sarsaparilla, a number of men who were formerly our Agents, have commenced making Sarsaparilla Extracts, Elixirs, Bitters, Extracts of Yellow Dock, &c. They generally put it up in the same shaped bottles, and some of them have stole and copied our advertisements,—they are worthless imitations, and should be avoided.

N. H. DOWN'S Vegetable Balsamic Elixir. The Great Northern Remedy for Consumption!

ALSO, the most effectual remedy in the world for *Colds, Coughs, Whooping Cough, Croup or Quinsy, Asthma, Pain in the Side or Stomach*, and Diseases of the LUNGS and LIVER.

This medicine is purely vegetable, and is by far the most effectual medicine known for all diseases affecting the BRONCHIAL or PULMONARY ORGANS.

Its effect upon the patient is most marked, and differs from that of most medicines recommended for the same complaints, in the following particulars.

1st—It never irritates the organs it should soothe—never dries up the cough, leaving the disease unchecked—but first *loosens the cough*, *increases the expectoration*, by *expelling* then it relieves the cause *by curing it completely* from the system, when as a matter of course, the *cough ceases* and the patient is well.

2d—It never produces costiveness in the consumptive patient—on the contrary it has a laxative effect, and is a moderate cathartic. We defy the world to produce a case of costiveness so inveterate but that in two or three weeks the patient in the meantime having proper regard to diet, it will effectually remove it, and produce a healthy action of the bowels.

3d—It does not produce dryness of the skin, but is a powerful promoter of *insensible perspiration*, thus expelling by the pores of the skin those humors and impurities of the blood, the retention of which in the system is the *sure precursor of DISEASE, SICKNESS AND DEATH*.

We can still present to DOWN'S ELIXIR as a specific for all the ills that flesh is heir to, but we do say, and can confirm by incontestable evidence that it is

CONSUMPTION.

And all diseases of the *lungs*, the *liver* and the *pulmonary organs*, it is *unrivalled*—[illegible] HUNDREDS have been snatched from an UNTIMELY GRAVE, and hundreds who *needed too long* to use, have found in the most [illegible] disease that RELIEF FROM SUFFERING which they had vainly sought from every other source.

This INVALUABLE MEDICINE is *a Home concern*, and put up in 2 oz and 14 oz bottles at [illegible] cents and one dollar per bottle, and each bottle warranted to contain MORE CURATIVE PROPERTIES than four bottles of any of the *much advertised* pint bottle preparations of the day.

We have received *hundreds of certificates* of its wonderful cures from every part of the country, many of which have been published and *may be had gratis of any of our agents*.

Sold wholesale and retail by CURTIS & SMITH General Agents ST. ALBANS, VT., to whom all orders for supplies of the medicine should be addressed, stating the best mode of sending it—also sold by agents in nearly all the villages in [illegible] [illegible] county.

Dear Sir—I have examined your *Pulmonary Elixir* and am well satisfied that it merits the full confidence [illegible] as being what it purports to be [illegible] *safe remedy* for *all* the disorders to which [illegible] respiratory organs are subject. Hot Blast Air-Tight COOKING STOVE.

[We would call the attention of the reader to a Report of the Worcester County Mechanics Association, held in the city of Worcester, Sept 1848.]

112 *Hot Blast Air-Tight Cooking Stove* contributed by Gordon Williston, Worcester. This stove involves an entire new principle in applying the heat to the baking or broiling of meats. The fine flavor of meat cooked directly upon the coals is the result of the action of the carbon. To broil on coals or over coals in our best Stoves, where this flavor is acquired, is both a difficult and disagreeable operation. But in this stove a steak was broiled in three minutes without any smoke or odor escaping into the room. It was evenly and well cooked, and had all the pleasant taste of a coal broil. A large oven immediately over the ordinary oven is so constructed that the whole body of heat can be made to pass through it, forming for the time being a flue for the draft. This arrangement secures all the qualities of a good brick or bake in meats without the labor usually attending on such affairs. It likewise has good radiating qualities, with large oven and convenient arrangements for cooking furniture.—[Silver Medal.
